Minimum phase case

The controller is given by

$$F(s) = \dots$$

Figure 1: Simulink plots from exercise 3.2.3

Figure 2: Bode diagram of the loop gain $L(s)$ from exercise 3.2.1

Is the controller good?

. . . . . .

. . . . . .

Are the output signals coupled?

. . . . . .

. . . . . .

Non-minimum phase case

The controller is given by

$$F(s) = \ldots$$

Figure 3: Simulink plots from exercise 3.2.3

Figure 4: Bode diagram of the loop gain $L(s)$ from exercise 3.2.1

Is the controller good?

. . . . . .

. . . . . .

Are the output signals coupled?

. . . . . .

. . . . . .
